Refreshing and stimulating on the palate, its fresh finish enriches this sensory experience.

**Fentimans Tonic** 5  
*England*

To brew the finest all natural tonic, the Fentimans family sought to enhance the deliberate smoothness of the fermented organic base, with the delicate subtlety of Lemon Grass from the Cochin area of India and the distinctive sharpness of purified cinchona bark (the source of quinine) of the same continent.

**Fever Tree Tonic or Mediterranean** 5  
*England*

**Thomas Henry Tonic or  
Thomas Henry Elderflower** 5  
*Germany*

Bitter is the new sweet, and with Thomas Henry Tonic Water they bring it to perfection. Its particularly high quinine content and subtle floral citrus aroma are the key of its refreshing taste.

**1724 Tonic Water** 6  
*Chile*

1724 Tonic Water takes its name from the location on the Inca Trail where quinine was discovered- at 1724 metres above sea level. It is a premium tonic water which offers the perfect balance between acidity and sweetness. 1724 Tonic Water is made from hand-harvested Peruvian cinchona bark and some of the world's purest spring water from Patagonia which give the drink its noticeably superior quality.
